- 3.5 Should Business Incorporation Zone offer any promotions, these will be for a specified time only and you will not be permitted to take advantage of any promotions after such time.

4. Public holidays

During periods in and around Ramadan, days of mourning, Eid and other national and religious holidays, all indicative timelines are likely to become subject to delay.

5. Visa application process

- 5.1 Business Incorporation Zone is legally obliged to keep the visa applicant informed of the progress of their visa application and is obliged to release the visa and passport directly to the visa applicant unless expressly directed otherwise by them.
- 5.2 All visa related documents submitted to Business Incorporation Zone (no matter what time of day) will always be processed the following Business Day.
- 5.3 If a “Unified Number” is required in the visa application process, GCC nationals will be required to personally visit the main or airport terminal 3 immigration offices to obtain their Unified Number report. The fee for this service is AED 250 for each shareholder and the estimated processing time is three (3) Business Days.
- 5.4 If, at any time during the visa application process, the visa application is terminated or cancelled by either yourself, the visa applicant or the relevant authority, you shall not be entitled to any refund. If you or the visa applicant wish to recommence a visa application, you must start the process from the beginning and the payment is required to be settled in full.
- 5.5 Any overstay fines must be settled prior to an entry visa being issued and the visa applicant will incur an administration fee plus typing fees. Once the fines are paid and the entry visa issued, the visa applicant must complete an in-country change of status and fines may be incurred from the day the visa is issued until the change of status is completed. The visa applicant will not be able to carry out the change of status by exiting and re-entering the country without paying the overstaying fines.
- 5.6 If the visa applicant is out of the country when their entry visa is issued, they are required to enter the country on their new entry visa. They will not be permitted to enter the country on a tourist visa or visit visa or visa on arrival.
- 5.7 In order to maintain a UAE residency, residents are required to enter the country at least once every 180 calendar days.

- 5.8 Change of status is required to be completed prior to applying for an Emirates ID Card and medical test.
- 5.9 Should the visa applicant be outside the country when their visa is issued, and they are not from one of the 56 countries granted a visa on arrival (please request a full list of these countries from Business Incorporation Zone if required) and they are entering the UAE on their new entry visa, which will constitute their change of status, they should ensure they contact their airline prior to travelling, as many airlines will need to verify a copy of their entry visa prior to travel and provide them with an 'OK to Board' authorisation. The same would apply if the visa applicant is inside the country when the visa is issued and plans to exit the country with their visa in hand and then re-enter the UAE by air.
- 5.10 Should there be a visa application under process and the visa applicant wishes to travel in and out of the UAE, and they are a national of one of the 56 countries who are granted visit visas on arrival, they should contact Business Incorporation Zone before re-entering the UAE, as if their visa application has cleared security approval, they may have to wait until their new employment visa has been issued and to re-enter the UAE using that visa.
- 5.11 If the applicant is on a 30-day grace period from a cancelled visa, and a new e-visa is issued, the applicant may not need to exit the country for the change of status to be completed. An in-country change of status only needs to be initiated.
- 5.12 If you are Schengen National and have exhausted the 90 day visit period granted by immigration, you need to exit and be out of the country for at least 90 days before you can re-enter the UAE with a tourist visa.
- 5.13 For helper/maid/driver visa applications, the applicant will not be able to proceed for an in-country change of status if the maid/helper/driver is here in the UAE on a tourist visa. They will need to make an airport to airport transfer to complete their change of status.
- 5.14 When a visa applicant is entering the country on their new entry visa, they must carry out an eye scan at the airport on arrival and ensure the immigration official stamps the entry visa as well as their passport. They should not enter on their e-gate card.
- 5.15 Once the change of status has been completed, a visa applicant will not be able to travel outside of the UAE until their passport has been stamped with their residency visa.
- 5.16 The visa process for certain nationalities may take longer than the indicative timelines provided by Business Incorporation Zone.
- 5.17 If your application gets returned due to pending documents (for example, cancelled UAE Residence Visa), immigration will grant you only ten (10) Business Days to complete and re-submit the application. Non-compliance will result in the application being rejected and the full visa fees will need to be repaid to restart the application.
- 5.18 For certain nationalities immigration officials have been known to request to be shown birth certificates and/or attested copies of passports and/or the original passports prior to approving the issuance of the entry visa.
- 5.19 Even if a visa applicant's place of birth and nationality isn't from one of the restricted countries but their name is deemed to have originated from one of those countries, they will experience delays and possible rejection for both their Immigration Card and visa release.
- 5.20 On occasion, delays may be caused at the time of an applicant's Entry Visa release, due to 'un-cleared previous visit visas'. This can occur when a national of one of the 56 countries granted a visit visa on arrival may have previously entered the UAE at one entry point and exited from another and the exit had not been updated in the Immigration system.
- 5.21 When this occurs, we will alert the applicant of the details that we have received from Immigration and return their passport to them, and they will be required to visit the point where they exited from and present Immigration there their passport, alerting them of the un-cleared exit date. They should request them to clear the exist in their system, after which the visa applicant may return their passport to us, and we will resubmit it for residency stamping. The standard timeline to complete this is sixteen (16) business days.
- 5.22 The timeline for passport and Emirates ID issuance remains the same, even if PRO assistance for the medical test and Emirates ID application is provided. This does not expedite the Emirates ID and passport stamping process.
- 5.23 The timeframe for the issuance of Emirates ID is solely at the discretion of the Emirates ID Authority and is outside the control of Business Incorporation Zone. Generally, it takes fifteen (15) business days from the date of issuance of the residence visa.
- 5.24 If a visa applicant has lost or surrendered their Emirates ID and does not have a copy of both sides, they should submit a copy of their passport with the previous visa and one passport sized photo to an authorized Emirates ID Authority Typing Centre. They will then forward this to the Emirates ID Authority with a request to obtain their previous Emirates ID Card number which will be required in

order to type the Emirates ID Card renewal application. The response time for obtaining the previous Emirates ID Card number from the Emirates ID Authority normally takes less than one (1) Business Day.

- 5.25 When a visa holder is renewing their passport, ensure that the new passport reflects the same name as on the original passport.
- 5.26 In order to secure a customs code (import/export code), the Manager on the licence must have a valid UAE residency visa.
- 5.27 If your previous UAE residence visa carried your maiden name, and you now have a new passport with your married name, you will need to provide us with a certificate from your embassy/consulate stipulating the change of name. This certificate will need to be attested by the Ministry of Foreign Affairs in the UAE and legally translated into Arabic. If your embassy/consulate don't issue a change of name certificate, you will need to obtain written confirmation from the embassy/consulate stating that they do not provide such a document which will also need to be legally translated into Arabic.
- 5.28 If the application for your entry visa is rejected as a result of not clearing 'security approval', you will be ineligible to apply for and secure a tourist visa in the future. This does not apply to nationals of the 56 countries who are granted visas on arrival.
- 5.29 If you are carrying more than one (1) passport, please ensure you inform a Business Incorporation Zone representative of the same. Furthermore, please note that you will be unable to travel on your 2nd passport (the one not submitted towards your visa process) whilst your visa application is in process.
- 5.30 If your normal passport which holds your valid UAE residence visa has run out of pages and/or expired, you will not be permitted to enter UAE on a temporary passport. You will need to wait until your new normal passport has been issued and then travel carrying both your new passport as well as your previous passport which holds your valid UAE residence visa.
- 5.31 If you have recently visited Kish or Iran or any other territory of Iran, you will only be able to apply for a UAE residency visa 6 months from the date you left Kish or Iran. Moreover, if you have any valid visa to Iran (used or not) you will also not be able to apply or renew your UAE residency visa.
- 5.32 We hold no responsibility for the issuance or delivery or delays related to Emirates ID Cards, or if the applicant is requested by the Emirates ID Card Authority to return to the ID Card centre to redo the biometric procedure.
- 5.33 Handwritten passports are no longer accepted, all passport copies submitted should be electronic/typed passports.
- 5.34 Passports bearing only your first name and no surname will not be accepted.
- 5.35 If the shareholder/manager only has one name on the passport, father's name/surname will be included and will be reflected in the complete company documents.
- 5.36 The passport used in the incorporation of the company licence and visa application has to be the same. If you are holding two passports, whether from the same country or from different countries, you will not be able to use one passport for one application and the other passport for the other, the same passport will need to be used for all applications.
- 5.37 If you have been issued a passport which is valid for less than three years, then you will only be issued a visa for the same length of time i.e. if your passport carries a validity of two years, then your visa will also only be for two years.
- 5.38 Any amendments to the passport's appearance i.e. design, format or validity, has to be updated in the immigration system. This process will take longer than the usual timeline and will require additional documentation such as an attested letter of confirmation from their respective embassy or consulate.
- 5.39 If a visa applicant has several previous UAE residency visas where their profession is mentioned as 'housemaid' they will not be able to obtain an employment visa under the company. Please contact us for further clarification and updates as the situation remains fluid in these cases, and on occasion, exceptions have been granted if the housemaid holds an attested degree certificate.
- 5.40 Any time any application needs to be re-submitted i.e. Trade Licence, Immigration Card, Entry Visa, Residency Stamping applications; the timelines for completing said process will be as if it were a new application.
- 5.41 All outstanding traffic fines have to be settled prior to applying for your visa as well as cancelling your visa.
- 5.42 Please note that visas issued on the company are exclusively for person/s working for that company. If a company is found to be selling visas and/or a visa holder is engaging in work for another company, the person/s in question is/ are likely to face legal prosecution and deportation.

Pre-approval for those who are planning to apply for visas that are granted approvals from

Immigration must immediately apply for the Employment Visa within 30 calendar days. Failure to apply within the stipulated timeline would mean that the pre-approval process would have to be done all over again; with the same timeline, process and cost. For licence upgrade or amendment which will include shareholders from the above-mentioned countries, an Undertaking Letter must be signed stating that approval is not always guaranteed and pre-approval would have to be done all over again; with the same timeline, process and cost. Kindly note that approval is not guaranteed on reapplication. Please contact us for up to date information as the list and procedures can become subject to change without prior notice.

62. You may apply for all visas on the company simultaneously as long as one of the visa applications is also for the 'person in charge'.

Furthermore, if any of the above are company shareholders and/or manager/director of the company, Immigration Card potentially may not be issued by Immigration, which would mean no visas would be able to be applied for under the company. Also, please note that even if your place of birth and nationality isn't from one of the restricted countries but your name is deemed to have originated from one of those countries, you may experience delays in both your Immigration Card and visa release.
80. An applicant may apply for their dependents' visas without utilising the services of Business Incorporation Zone (with the exception of assistance in providing a salary certificate).
